

OCTOBER 2021 VOLUME 22

Health Education Collaborative Newsletter

A note from the CEO

Bruce Greaves

Another very big month for Health Education Collaborative and Victoria. Our vaccination targets are being met and the state is now opening up. It is really great to see the change in people's mood. Only time will tell what we in the health sector will face over the next few months. So, now is not the time to let our guards down. In fact, we should be even more diligent with our IPC strategies as the virus now has a free hand in the community. Please all continue to do your bit to keep our community safe.

We have expanded our team. This month has seen the addition of three new team

members - Sharyn, Donna and Rebecca. They come with a wealth of knowledge, clinical experience and expertise. Their backgrounds include: emergency nursing, infection prevention, education, simulation training and critical care. With such a strong and experienced team we are looking forward to delivering a variety of clinical skills training programs in 2022 including onsite simulation training.

We look forward to formally introducing them in our November Newsletter and on our website next month.

Keep safe!

Education Update

Marg Villella

I thought I might try something different this month - a crossword of medical terms. I have mixed in a few harder ones. Hopefully, there are some crossword enthusiasts out there. I will provide the answers next month.

October crossword

Down:

1. class of antibiotics that work by preventing bacteria from producing proteins they need to grow and multiply
3. tissue or organ protrusion through an opening
6. pain around the two small bones (the sesamoid bones) below the metatarsal head where it adjoins the big toe (first metatarsal head)

Across:

2. small sacs filled with joint (synovial) fluid that form in an extension of the joint capsule behind the knee
4. excessive clotting
5. a tumor usually in the pancreas or duodenum
7. anatomical term for the heel bone
8. partial blindness or vision loss in half of the visual field
9. mature red blood cells (RBC)
10. bacterial infection in the mastoid process
11. sweating in excess

“Experience is simply the name we give our mistakes”.

OSCAR WILDE

UPCOMING EDUCATION SESSIONS

19 and 20 November 2021

Fracture Management Course

Time: 0845 to 1700

Holmesglen Private Hospital

Moorabbin Victoria

[Click here](#) to register

Health Education Collaborative

Out and about

Sharon and Marg at Victorian Aboriginal Health Service fit testing.

Edenhope Fracture Management course

“An education isn't how much you have committed to memory, or even how much you know. It's being able to differentiate between what you know and what you don't”

ANATOLE FRANCE

ONLINE COURSES

ECG Basics

Suitable for all nurses, paramedics and doctors that need to be able to interpret an ECG.

[Click here](#) to register.

Clinical Assessment

Suitable for nurses, nursing students, medical students and doctors. A thorough systematic assessment is vital in order to assess patients and to recognise early deterioration.

[Click here](#) to register.

FRIDAY, 19 NOVEMBER OR
SATURDAY, 20 NOVEMBER
2021

FRACTURE MANAGEMENT COURSE

This is the **only** fracture management course endorsed by the Australian Orthopaedic Association (AOA). There is an online component to complete as well as attending the practical day.

Click [here](#) to register for the course.

“If you have knowledge, let others light their candles in it.”
