

SEPTEMBER 2022 EDITION

VOLUME 30

Health Education Collaborative Newsletter

A note from the CEO

Bruce Greaves

What a sunset it was, and the sunrises were just as spectacular during our time facilitating courses and skills workshops at Urapuntja Health Service in the Northern Territory. Urapuntja health service is situated in the Utopia region 275km northeast of Alice Springs and services around 3000 people in remote settlements that have great names such as Soapy Bore.

After being picked up in Alice Springs by Craig one of the clinical nursing staff, we set off on the 3-hour journey mostly on unsealed red dirt roads. Over the week we delivered several programs to a fantastic group of nurses. We also became involved with several cases with Marg also helping escort a patient having an AMI out to meet the RFDS for an evacuation flight to Alice Springs.

It is very rewarding work which you just don't get to experience in the city. We are planning to head back out very soon to provide another extensive range of programs, work with the staff in the clinic, provide training to health workers and importantly deliver specific contextualised training to nominated community members and elders.

We are leaders in innovative clinical training models. We developed the champions model of training and continue to work with organisations constantly improving our program delivery.

If you are interested in remote area health care, please contact us to have a chat.

Education Update

Marg Villella

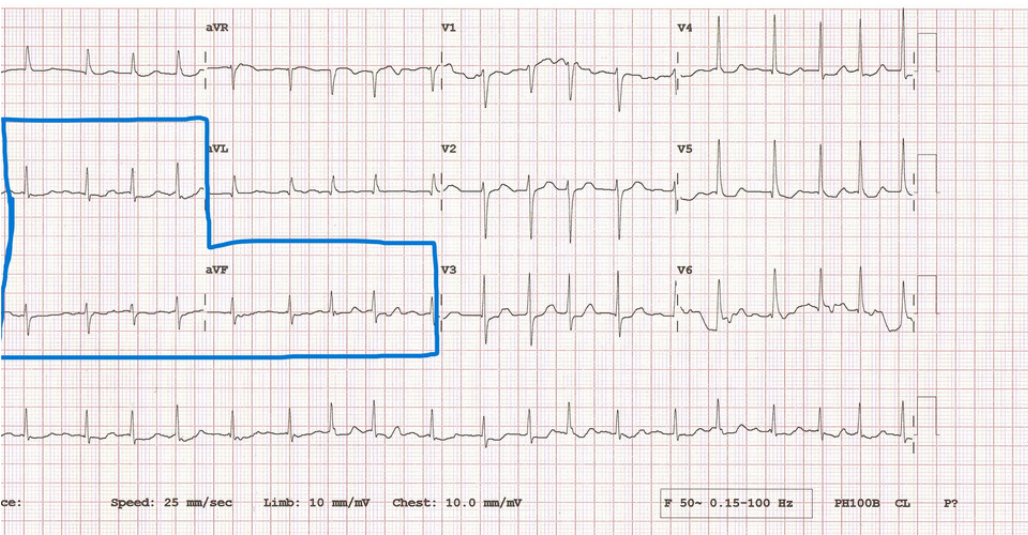

Welcome to this month's clinical questions. I thought I would put in a few rhythm strips and an ECG question. I have included the format for interpreting the rhythm strips after each rhythm strip. If you are interested in learning more about ECGs, [click here](#) to register for our ECG course. Use the coupon code newsletter to receive **\$100 discount**.

Rhythm (regularity)
