

# HEALTH EDUCATION COLLABORATIVE NEWSLETTER

## ONSITE TRAINING

Bruce and I had a fantastic week delivering onsite training at Urapuntja Health Service in Utopia NT. It was a jam-packed week of training including eye emergencies, ear health, wound management, adult ALS, recognition of the seriously ill child and paediatric ALS, suturing and fracture management.

Look at this magnificent sunset!

## Introducing NHET-SIM sessions

Health Education Collaborative will be rolling out NHET-SIM modules in 2025 in your state. Modules include:

**Module C2: Being a simulation educator** (covers basic principles of simulation with a particular focus on educational design for simulation scenarios, briefing and debriefing practices).

**Module S9: Debriefing in simulation** (provides you with an opportunity to reflect on your debriefing practices).
