

WELCOME TO OUR

Monthly Newsletter

We have been very busy over the winter months travelling far and wide: Victoria, NT, WA, Queensland, SA and Tasmania delivering a vast array of courses including IDC insertion NHET-Sim, deteriorating patient, paediatric advanced life support, adult advanced life support, IV cannulation, ECG interpretation, suturing and fracture management.

On our travels we had the opportunity to see the recently completed silo art at Rupanyup (complete with my favourite bird) and enjoyed a lovely walk around the lake in Murtoa.

In this newsletter you will find:

Out and about and upcoming course dates. Keep reading!

UPCOMING COURSES](#)

Course dates for the first quarter of 2026 will be added to the upcoming events page from mid-September. Let us know if you would like a course in your area.

Please contact us to receive our Health Education Collaborative onsite course brochure. Onsite courses are a cost-effective way to train your staff. No need for your staff to travel as we come to you!

The brochure features a photograph of a classroom with people seated at tables. The HEC logo is in the top left. The text 'HEALTH EDUCATION COLLABORATIVE' is prominently displayed in the center. At the bottom, there are contact details for Marg Vilella and Bruce Greaves, along with a list of services: Specialist Facilitators, Onsite training, and Customised sessions.
